BEHIND THE LIGHT

TY TRIAS (OLGA CUENCA)

Ty Trias is the heteronomous name of an emerging artist: Ty is the acronym of "To you" because when she creates a work, the artist does it thinking of the emotion she would like to provoke in the people who come to discover it. Trias refers to her characteristic "trees" (both words share a common trunk and are pronounced in a similar way), sculptures that, in installations, simulate a corner of a birch forest. Ty Trias arises from the fusion of the artist's diverse, open and enriching life experiences.

The concept Behind the light, developed by Ty Trias and the Cultural and Scientific Department of the Spanish Embassy in the Kingdom of Belgium, is inspired by the treatment of light in the artist's work, but above all, by an invitation to reflect on what is sometimes hidden behind the light, not only in art, but in other facets of our existence.

PROGRAM: 25/06/2020 12h - 13h30

- 12h - Welcome by the Ambassador of Spain to the Kingdom of Belgium
- 12h05 - Conversation between the Ambassador and Ty Trias
- 12h20 - Open Q&A with Ty Trias, moderated by Sergi Farré Salvá, Cultural and Scientific Counsellor of the Embassy of Spain to the Kingdom of Belgium

Spain Arts & Science LAB in Belgium

25/06/2020 - 01/09/2020
